About Us

Establishment

T-SWAN Limited is a manufacturing company not only offering OEM and ODM services for over-sea clients but also selling non-branded earphones and headphones. We are located in the consumer electronics manufacturing zone in Dongguan city, China.

Philosophy

Our goal is to provide high quality and innovative products to all buyers to help connect people around the world with technology. Through stellar communication, cooperation and service we can seize the business opportunities of the fast-growing technology world.

Offers and services

We have our own factory and we are also working with factories directly on earphones, headsets, bluetooth technological peripherals and accessories. All of our products quality can be made to conform to CE, ROHS, Prop65/CA65, CPSIA and FCC standards. We have experienced team members coordinate with each other, supervising and monitoring the whole manufacturing process.

Our Mission

From new product development, semi-finished goods checking, mass production, shipping out the finished goods as well as providing advertising images of final products to the client, we offer complete solutions to you and your business partners. We will constantly improve our products and you can make the development of new products easier, reduce workload, and shorten the period to launch. As the client of T-SWAN, your satisfaction is our best achievement and we look forward to matching your needs.
